

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to Bank of New York Mellon. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to Bank of New York Mellon must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 15th of the month following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

3. This quarters activity plus last quarters cumulative total did not equal this quarters cumulative total. Counselor Direct stated that "Generally we have seen these numbers shift as these are all powered by the date entered in the system. For example, if you previously declined a file back in Q4 of 2012, with a decline date of 12-1-12, but they later came back and appealed or they were re-decided, and were again declined in Q1 of 2013 (new decline date of 1-15-13), that decline would move from Q4 of 2012 to Q1 of 2013. Same thing if they switched from an approval to a decline between quarters, or vice-versa. Similarly your closeouts can move like this as well (which would also affect your closeout reasons when these move)."
